

# Lexmark complements enterprise portfolio with new devices featuring enhanced productivity, security

**Lexmark Smart MFPs and printers provide an intuitive and consistent user experience to bridge the paper and digital worlds across the enterprise**

LEXINGTON, Ky.

## **News Facts:**

- Lexmark International, Inc. (NYSE: LXX) announces the addition of four new A3/ledger-capable devices to its comprehensive line of Smart MFPs and printers.
- The [Lexmark MS911 monochrome laser printer](#) and [Lexmark MX910 monochrome laser MFP series](#), ideal for high usage environments, feature long-life components, enterprise security and advanced finishing options.
- Part of Lexmark's complete enterprise portfolio, these A3/ledger-capable devices complement the more commonly used A4/letter-sized devices.
- The series increases productivity by reducing downtime with quick time to first print, high capacity input of up to 6,650 sheets as well as "shake-free" toner cartridges and long-life components that require fewer interventions.
- Finishing options such as multi-position staples and hole punches as well as automated folding functionality with saddle stitch binding simplify professional presentation.
- Encrypted hard drive<sup>1</sup>, optional user authentication and secure automatic disk wiping provide enhanced security.
- The series' holistic platform provides a seamless connection between the paper and digital worlds and a consistent and intuitive user experience across devices.

## **Supporting Quote:**

"Cost and size advantages of A4/letter devices often make them the best fit in most enterprise environments; however, having A3/ledger devices that can print on 11-inch by 17-inch media can be crucial for certain business applications," said Marty Canning, Lexmark executive vice president and president of Imaging Solutions and Services. "For those instances, the Lexmark MS911 and MX910 series products are excellent choices, providing simple and consistent user experiences across the fleet with productivity-enhancing solutions that bridge the paper and digital worlds across the enterprise."
