

Etex Implementing Perceptive Capture to Improve Throughput in Accounts Payable

Perceptive Capture selected for increasing efficiency, visibility and productivity within accounts payable operations

LENEXA, Kan. – (2014-11-25)

News Facts

- Lexmark's **Perceptive Software** announces that **Etex**, an international building materials group, has selected Perceptive Capture for increasing productivity and efficiency within its accounts payable operations.
- Through its more than 100 companies, Etex operates in 45 countries and has a turnover of more than 3 billion euro annually. Etex selected Perceptive Software to help reduce its administrative charges on a global level.
- After an extensive analysis of the current processes in the company's SAP environment, Etex concluded the Perceptive Capture solution provides it with the strongest potential for efficiencies and cost reduction.

Supporting Quote

"Perceptive Software helped us discover an opportunity to improve the operational efficiency and performance of our accounts payable operations in our shared service centers," said Didier Staquet, Etex Group Shared Service Center Coordinator. "The Perceptive Capture solution performed very well in the blind test, the product was immediately able to get 93 percent of all the fields off our invoices without any preparation or training. The Perceptive team then helped us to shape our business case and delivered a solution that will propel us forward in achieving our goals."

About Etex

Etex is a Belgian industrial group manufacturing and selling building materials. Its four core businesses are: cladding and building boards in fiber cement and plaster, roofing materials, passive fire protection and high performance insulation, and ceramic floor and wall tiles. With 17,500 employees operating on 119 production sites in 45 countries and with an annual turnover of more than 3 billion euro, Etex is an international player in sustainable building solutions.
