

# BERTL RECOGNIZES LEXMARK'S MARKVISION PROFESSIONAL SOLUTION AS BERTL'S BEST

Lexmark International, Inc.'s (NYSE: LXX) MarkVision Professional device management utility was recently honored with a BERTL's Best 2008 award, the highest honor from BERTL, a leading independent test laboratory. The solution was recognized for Best Extensive MFP/Printer Network-Management Solution.

MarkVision Professional is a solution designed to help network administrators easily set up, configure, manage, and troubleshoot their networked printing devices. Real-time monitoring allows users to be notified immediately of printer events, such as the need to order a new toner cartridge.

"Web-based MarkVision Professional provides a vast range of capabilities for monitoring and administering network-connected printers across the enterprise," said BERTL. "With it, network administrators can quickly and efficiently discover, organize, group, configure, and upgrade groups of network devices. Administrators can quickly assess the status and configuration of network devices."

"The MarkVision Professional network-management solution gives customers complete control of their networked printing environment around the clock. Customers can improve their productivity by proactively managing their printing devices through an alert-driven architecture," said Marty Canning, Lexmark vice president and president of its Printing Solutions and Services Division. "We are proud that MarkVision Professional has been acknowledged with a BERTL's Best award."

BERTL, which reviews current and new products in the areas of digital imaging, software and management utilities, gives BERTL's Best awards to devices and software that stand apart from the competition. Functionality, feature set and performance are key considerations in judging what product or solution is worthy of BERTL's Best recognition.
