

LEXMARK E352DN RANKED IN PC WORLD LIST OF TOP FIVE MONOCHROME LASER PRINTERS

PC World, a leading technology publication, has ranked Lexmark International, Inc.'s (NYSE: LXX) [E352dn](#) in its list of top five monochrome laser printers based on the speed and features of the printer.

According to the PC World review on Dec. 28, 2007, the Lexmark E352dn "offers speed and features galore, plus expandability," and can "churn out good-quality text quickly."

The Lexmark E352dn monochrome laser prints at remarkable speeds of up to 35 pages per minute and features Instant Warm-Up fuser technology, reducing the time to first print to as little as 6.5 seconds, even from Power-Saver mode. It is also network-ready and includes a Quiet-Mode function to help minimize unwanted noise.

The Lexmark E352dn is Energy Star certified for environmentally conscious customers, comes equipped with standard two-sided printing to help users reduce paper usage and has an Eco-Mode to optimize energy efficiency.

"The Lexmark E352dn delivers high-quality output rapidly, giving customers the ability to execute with speed, move information faster and increase their productivity," said Marty Canning, Lexmark vice president and president of its Printing Solutions and Services Division. "We are pleased to have PC World recognize this printer for its impressive performance and broad range of features."

In 2007, the Lexmark E352dn also received a Spring "Pick of the Year" award and a "Highly Recommended" rating from Buyers Laboratory Inc., and an Editor's Choice award from Better Buys for Business.
