

## Lexmark adds to list of awards for its innovative multifunction, color laser line-ups

Buyers Laboratory Inc. (BLI) and BERTL, two leading test laboratories, have recognized color lasers and multifunction products (MFPs) from Lexmark International, Inc. (NYSE: LXX) for reliability, ease-of-use and innovative technology.

Lexmark won four Fall Pick of the Year awards from BLI, which are given only to BLI's highest rated products. The awards included: Outstanding Mid-Size Workgroup Color Printer, Lexmark C782dtn; Outstanding Large Workgroup Color Printer, Lexmark C935hdn; Outstanding Large Workgroup Color MFP, Lexmark X945e; and Outstanding Mid-Size Workgroup Monochrome MFP, Lexmark X644e. "The C782dtn and C935hdn offer the excellent reliability, ease of use and image quality we've come to expect from Lexmark products," said BLI. "The X644e and X945e also include Lexmark's intuitive e-Task interface and add the convenience of standard print, copy, fax and scan functionality to the equation. All that, combined with Lexmark's comprehensive administrative utilities and an array of standard security features, led to their selection as 'Pick' award winners in their respective categories."

BERTL also recognized the Lexmark X945e color laser MFP with its Four-Star, Highly Recommended rating. "Considering the X945e's excellent performance in testing, good productivity in network-printer, copier and scanner modes, exceptional ease of use, and network-scanning enhancements, BERTL highly recommends the Lexmark X945e for mid- to high-volume office workgroups that require a solid, very user-friendly, mid-volume MFP for both black-and-white and office-color print, copy and network-scanning applications," BERTL said. "Lexmark has brought the same best-in-class paper handling, ease-of-use, quality and reliability to our color and MFP products that has made us successful with our monochrome laser products," said Marty Canning, Lexmark vice president and president of its Printing Solutions and Services Division. "Our customers can now look to Lexmark for a full line of award-winning laser single function and multifunction products."
